Full Stack Software Developer with 8+ years building production web and mobile applications in React (ReactJS), Next.js, React Native, TypeScript, Node.js, and Laravel, across real-time platforms, e-commerce, and enterprise systems.

TECHNICAL SKILLS

Programming Languages
JavaScript, TypeScript, PHP, SQL, HTML, CSS, Sass

Libraries & Frameworks
React (ReactJS), Next.js (NextJS), React Native, Redux, Node.js, Laravel, Tailwind CSS, REST API Development, Vue.js, WebSockets

Tools & Platforms
Git, GitHub, Vercel, DigitalOcean, MySQL, PostgreSQL, Firebase, Supabase, WordPress, WooCommerce, Docker, CI/CD, Azure DevOps, Stripe, Storybook, Figma, AI Assisted Coding, Copilot, Claude Code

PROFESSIONAL EXPERIENCE

Senior Software Developer @ Scouty Interactive
December 2022 - Present

- Built Scouty, a football team management platform, as a Next.js web app paired with a React Native mobile app for iOS and Android.
- Implemented real-time communication with Firebase, delivering live updates across coaches, players, and admins.
- Lead the team's technical direction and code reviews across web and mobile.
- Integrated Stripe for subscription billing and deployed the web app to DigitalOcean with Nginx, SSL, and PM2.

Software Developer @ Talent Pro
January 2022 - December 2022

- Developed and deployed a Next.js real estate web application, improving load times by 30% through optimization techniques.
- Built a Vue.js and Laravel admin panel for the same product, expanding property management capability.
- Built a React and Laravel stock exchange project.

Web & Apps Developer @ Dream Diver
July 2020 - December 2021

- Launched a React (Next.js) website and Ionic PWA for a package delivery company, achieving a 25% increase in customer satisfaction.
- Engineered a Laravel-based patient management solution covering records, appointments, and billing.
- Built a cross-platform food ordering app with Ionic, shipping to both iOS and Android.

Junior Web Developer @ 7 Info Tech
August 2018 - July 2020

- Built a Raw PHP-based Inventory Management System with data tracking, enhancing inventory accuracy for 1,000+ users.
- Developed and customized WordPress E-commerce sites, improving site speed and user engagement.
